Pharmaceutical Packaging  
- an introductory course

Pharmaceutical Packaging is a very specialised area with its own unique issues and problems. This two day course will provide delegates with a good basic grounding and appreciation of what is required for the packaging of pharmaceutical and healthcare products. Whether you know nothing, have a basic understanding or are familiar with the area, this course will provide you with the useful knowledge and insights from an expert who has worked in the industry for over 25 years.

What it covers?
- Packaging component and material selection
- Key properties of various packaging materials/systems
- Pack testing and evaluation
- Packaging component specifications
- Printing processes and controls
- Artwork generation and control
- Regulatory requirements eg MA packaging requirements, Braille, 2D Data Matrix barcodes, Child resistance, Tamper Evidence, Readability and others
- Transit packaging
- Trade/Supply Chain requirements

Who should attend:
- Account Managers
- Artwork Producers
- Auditors
- Business Developers
- Clinical Trial Suppliers
- Logistics Personnel
- Packaging Design/Labelling Personnel
- Project Managers
- Purchasers
- Quality Assurance and Control Personnel
- Regulatory Personnel
- Suppliers to the Industry
- Technical Writers

Comments from previous attendees:
“Lots of actual packaging to look at, really good”
“Good overview of packaging, fitting all aspects together”

Course Programme
The course will commence at 9.00am and finish sat 5.00pm each day

Day 1
- The Role of Packaging
- Special Aspects of Pharmaceutical Packaging
- Regulatory Overview
  - Agencies, Guidelines & Legislation
  - Dossier Requirements
  - International Conference on Harmonisation (ICH)
  - Common Technical Document (CTD)
  - Summary of Product Characteristics (SmPC)
  - Differences between Submissions in EU & USA
  - Emerging Legislation (inc. Issue Drivers & Technology Remedies)
    - Bar Coding (Briefly) – EAN, 2D – Datamatrix, QR
    - Counterfeiting & Product Security
    - Drug Quality & Security Act
    - Falsified Medicines Directive
    - Choice of Pharmaceutical Packaging
- Compatibility & ICH Testing (All Zones)
- Testing & Evaluation
- Extractables & Leachables – Including a Case Study

Day 2
- NPD Process & Role of Packaging
- Main Pharmaceutical Packaging Formats & Materials
  - Primary – Key Properties & Cleanliness
  - Secondary – Pharmaceutical labelling – labels, leaflets (PILs), cartons
  - Manufacture, Benefits, Potential Issues, Testing & Printing
- Trade / Transit Requirements
- Specifications
- Environment
- Artwork Requirements
- Some Special Requirements for Packaging
  - Medical Devices - Briefly: - Categories, CE Marking Requirements
  - Child Resistant Closures
  - Tamper-Evidence
  - Readability
  - Braille
  - Patient Compliance

- Interactive Session

Venue:
DoubleTree Hilton Islington
60 Pentonville Road, Islington London UK N1 9LA
Website: www.doubletree3.hilton.com

Course fee includes all course materials, refreshments and lunch, accommodation is not included.

Accommodation and travel directions are available on our website

Course Speaker: Chris Penfold

Chris has over 25 years pharmaceutical & healthcare packaging development experience - developing, bringing to market and selling FMCG, OTC, Rx (prescription only) & GSL products – as well as Medical Devices.

He has worked for a number of major ‘blue-chip’ companies, including - Glaxo (GSK), Pitman Moore (now Schering Plough), Ciba (now Novartis), Boots Group Plc and Reckitt Benckiser. Chris also has many years consulting & strategic thinking experience - underpinned by an MBA completed in 2000.

He is a leading packaging professional within the European healthcare industry with numerous networked contacts.

Chris is also a Fellow of the Institute of Packaging, a Chartered Environmentalist and also a Charted Marketeer.
